Avataar Remote Work Policy

Version 2.1 - Effective 1 November 2026

1. Purpose

This policy explains how employees can work remotely while keeping teams productive and customer data secure. It applies to all full-time and part-time employees in India, the United States and Singapore.

2. Eligibility

Employees become eligible after completing 90 days of service. Managers may approve up to 3 remote days per week. Fully remote arrangements need written approval from both the department head and Human Resources.

3. Working Hours

Remote employees must be available during core hours, 11:00 to 16:00 IST, and respond to messages within 2 hours. Meetings should be scheduled within core hours whenever teams span more than one time zone.

4. Equipment and Allowance

The company provides a laptop, a headset and a one-time home office allowance of Rs 25,000. Employees may claim an internet reimbursement of up to Rs 1,500 per month by submitting receipts before the 5th of the following month. All equipment remains company property.

5. Security Requirements

Company devices must use full-disk encryption and the approved VPN at all times. Customer documents may not be printed or stored on personal devices. Public Wi-Fi may only be used with the VPN enabled. Lost or stolen devices must be reported to IT Security within 24 hours.

6. Performance and Review

Remote arrangements are reviewed every 6 months. Managers may end an arrangement with 14 days notice if performance or collaboration targets are not met. Employees may request a review at any time.

7. Health and Safety

Employees should set up a safe workspace with adequate lighting and an ergonomic chair. Work-related injuries at home must be reported within 48 hours, in the same way as injuries in the office.

8. Contacts

Questions about this policy should be sent to hr-policy@avataar.example. Security incidents should be reported to security@avataar.example or by calling the 24-hour helpdesk at extension 4400.
